PATENT COOPERATION TREATY

From the INTERNATIONAL SEARCHING AUTHORITY

OKABE, Masao

No.602, Fuji Bldg.,2-3, Marunouchi 3-chome, Chiyoda-ku, Tokyo 1000005 Japan

WRITTEN OPINION OF THE

		INTERNAT	FIONAL SEARCHING AU (PCT Rule 43 <i>bis.</i> 1)	THORITY
		Date of mailing (day/month/year)	27. 9. 2005)
Applicant's or agent's file reference 10001486WO01		FOR FURTHER	ACTION See paragraph 2 below	
International application No. PCT/JP2005/010995	International filing date 09.06.		Priority date (day/month/ye 14.06.2	•
International Patent Classification (IPC) of Int.Cl. ⁷ H01L29/786, 21/33		tion and IPC		
Applicant CANON KABUSHIKI KA	ISHA	*		•

1.	This o	opinion contain	s indications relating to the following items:
	V	Box No. I	Basis of the opinion
		Box No. II	Priority
		Box No. III	Non-establishment of opinion with regard to novelty, inventive step and industrial applicability
		Box No. IV	Lack of unity of invention
	P	Box No. V	Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
		Box No. VI	Certain documents cited
		Box No. VII	Certain defects in the international application
		Box No. VIII	Certain observations on the international application
2.	FURT	HER ACTION	
,	Intern other	ational Preliming than this one to	mational preliminary examination is made, this opinion will be considered to be a written opinion of the lary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written national Searching Authority will not be so considered.
	a writt	ten reply togethe	provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA at, where appropriate, with amendments, before the expiration of 3 months from the date of mailing of Form the expiration of 22 months from the priority date, whichever expires later.
	For fu	rther options, se	e Form PCT/ISA/220.
3.	For fu	rther details, see	notes to Form PCT/ISA/220.

[Claims 1-3, 5-7]

The subject matter of claims 1-3,5-7 does not appear to be novel with respect to D1 cited in the ISR.

D1 discloses a field effect transistor having an insulating layer composed of a cured phenol resin.

[Claims 1-3]

The subject matter of claims 1-3 does not appear to be novel with respect to D2 cited in the ISR.

D2 discloses a field effect transistor having an insulating layer composed of a cured phenol resin.

[Claims 1-3]

The subject matter of claims 1-3 does not appear to be novel with respect to D3 cited in the ISR.

D3 discloses a field effect transistor having an insulating layer composed of a cured phenol resin.

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/JP2005/010995

Supplemental Box

In case the space in any of the preceding boxes is not sufficient.

Continuation of: Box No. V

The subject matter of claims 4 does not appear to involve an inventive step in view of the D1-D5.

It is not special that a conductive layer consists of an agglomerate of conductive fine particles which have a diameter of 5nm to $2\,\mu$ m. (see D4,D5)
